5/13/2020

## R Markdown

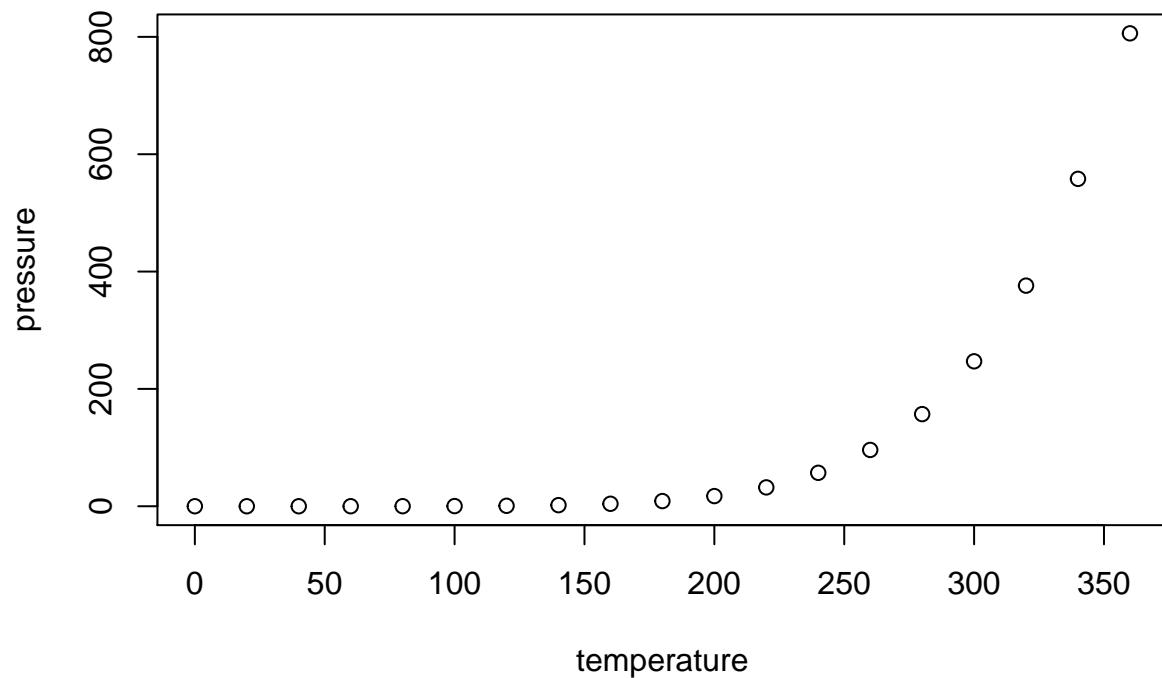

This is an R Markdown document. Markdown is a simple formatting syntax for authoring HTML, PDF, and MS Word documents. For more details on using R Markdown see <http://rmarkdown.rstudio.com>.

When you click the **Knit** button a document will be generated that includes both content as well as the output of any embedded R code chunks within the document. You can embed an R code chunk like this:

```
##      speed         dist
##  Min.   : 4.0   Min.   : 2.00
##  1st Qu.:12.0   1st Qu.:26.00
##  Median :15.0   Median :36.00
##  Mean   :15.4   Mean   :42.98
##  3rd Qu.:19.0   3rd Qu.:56.00
##  Max.   :25.0   Max.   :120.00
```

## Including Plots

You can also embed plots, for example:

Note that the `echo = FALSE` parameter was added to the code chunk to prevent printing of the R code that generated the plot.

```
print('Cool')  
## [1] "Cool"
```
